

Not Afraid

Acceptance

Not afraid of the sounds you make
Not afraid of the steps you take
Told you that troubles on its way

Didn't I think you thought we were gone
We were gone and on and on
Didn't you say that we don't belong
Don't Belong go on and on

I told you the first time...
Troubles on its way...

We keep movin'
I said...headlights last long
We're all...ready while we can
We're all...givin' what we feel this is real
(2x)

Didn't I think you thought we were wrong
We were wrong and on and on
Didn't I hear you singin' along
All along and on and on

I told you that troubles on its way...

We keep movin'
I said...headlights last long
We're all...ready while we can
We're all...givin' what we feel this is real
(2x)

This is real...

Not afraid of the sounds you make
Not afraid of the steps you take
Told you that troubles on its way

We keep movin'
I said...headlights last long
We're all...ready while we can
We're all...givin' what we feel this is real
(3x)

We keep movin'
Headlights last long
Ready while we can
Givin' what we feel this is real.
