

Wildfires

Acceptance

I see a light up ahead
Nobody's talking, everyone's looking away
What did I hear you say?
Keep driving faster
Keep driving faster now

Ooh...
Keep driving faster now
Ooh...

This house is burning down, but we'll survive the fire
Oh, you think that you don't need me
I'm trying to keep us together
Will you help me?
This house is burning down, through all our wildest fires

I've seen this once before
You know, everyone's talking, but you're still looking away
What did I hear you say?
Honey, I'm thinking
It's better off if we just

Ooh...
It's better off if we just
Ooh...

This house is burning down, can we survive the fire
Oh, you think that you don't need me
I'm trying to keep it together, will you save me?
This love is burning down, gone with the fire
I remember how we used to be in our sweet reverie, sweet reverie

Until the lights turn off
Until the days go dark
I never thought that I'd remember
The way you said forever

I'm trying to keep it together
I'm trying to keep it together
I'm trying to keep us together

This house is burning down and I can't stop the fire
I can't stop the fire
I wanted you to stay, I'm begging you to stay
I can't keep it together
Will you save me?
This house is all we have, but it's barely holding on
And we're barely holding on
And I'm sure you feel the same
I know you feel the same
We can keep it together
Will you help me?

This house is burning down and we survive the fire
Oh, you think that you don't need me
I'm trying to keep us together, will you help me?
