

## Dig

ACCVSED

The spawn of a dying light  
We're holding on to a pulse of life  
My eyes are trembling  
And I lost my sight

I've been drifting away  
Can't fall asleep, won't wake up to see another day  
I've been falling apart  
Like I was cursed from the start

Hold on, hold on  
This is my warning to you all, bow

Can't fall asleep  
But won't wake up  
I know I'll be alone again, just fuck it  
So are the rest of them

Hey! Hey! How did you find me today?  
They had me digging 'til the ground tore out my fingernails  
Hey! Hey! Say did you feel me today?  
I tried to be like you, feel like you, just keep me away

As we fall far from grace, I twist and turn  
I'm waiting for the day when we will be erased from this Earth

Hey! Hey! How did you find me today?  
They had me digging 'til the ground tore out my fingernails

Hey! Hey! How did you find me today?  
They had me digging 'til the ground tore out my fingernails  
Hey! Hey! Say did you feel me today?  
I tried to be like you, feel like you, just keep me away

Hey! Hey! Say did you feel me today?
