

Blinded

Ace Frehley

'Cause we're blinded by science
And we're blinded by fear

It's like a mind attack
It could bring us to our knees
Another code to crack
The trojan horse will be our enemy

And we don't know which way to go
Or even who to trust
Technology with no empathy
We're about to lose control

'Cause we're blinded by science
And we're blinded by fear
When all is said and done, it's like a loaded gun
A digital tug of war
'Cause we're blinded by it all

Better watch your back
'Cause there's cameras everywhere
We gotta face the facts
We're the victims in the web of despair

And we don't know which way to go
Or even who to trust
Technology with no empathy
We're about to lose control

'Cause we're blinded by science
And we're blinded by fear
When all is said and done, it's like a loaded gun
A digital tug of war
'Cause we're blinded by it all

And we don't know which way to go
Or even who to trust
Technology with no empathy
We're about to lose control
We're about to lose control

'Cause we're blinded by science
And we're blinded by fear
When all is said and done, it's like a loaded gun
A digital tug of war
'Cause we're blinded by it all

Zeros and ones
Rule the world
Zeros and ones
Got us by the balls
