Ace Hood

Fuck a reservation they done got me activated
Practicing my love just don't get me aggravated
Really I'm just vibin' got me sliding with that baby
Really I'm that boy I gotta brag about me crazy
I be counting money counting blessings on a daily
Moving like a king it ain't no other way to play it
Real or you fake it ain't no other way to weigh it
Do we got a problem I ain't hear nobody say it
Everyday I'm praying
Everyday I plan send my wires in advance
Flying out the France 'round my toes through the sand
Feeling how I'm looking, oh man, super sayan
It's a lovely day, I made a hell of a play
Turned a dollar to a dream now it's millions at stake
When you know this what you want see they opinions deflate
I can hop on any beat and do the surgical ace
Pull up in [?] on god
Pay the Lord I never did fraud
I don't hate on niggas I applaud
'Cause I'm really out here living on my side
Couple niggas say the block hot
They laying low they left the chevy at the body shop
Been on my independent flow I'm tryna rake it in
I kiss my kids and say good night soon as I make it in
I'm just a product of the field who made it up the hill
We talking seven, eight figures we might have a deal
I move in silence I was quiet when I hid the body
I put a beat in to a gillie and go nighty nighty
I 'member riding in that bucket it went barely ninety
I got them paying for these bags like they spirit [?]
