

## Be Calm

Ace Hood

Spitting nothing but facts, fans screaming I'm back  
Legendary I'm that, cooking up a new batch  
Guess who got a new glow? Patenting a new flow  
Purifying that dough, my dog with me Cujo  
These niggas be lying, fairy tales in their rhymes  
Something special inside, everything in do time  
I just landed Multan, pick me up in that Don  
Everybody be calm, everybody be calm

Jumped in at 08, destination be great  
God got me I'm straight, elevating my faith  
Time to set the new pace, must acquire my taste  
Ain't nobody here safe, any man em get waste  
Crucial point in my life, ain't using no brakes  
Everything off the muscle, everyday on the hustle  
Feature prices got doubled, start to feel I'm too humble  
Told T to get the bag in with this rap 'ish and run circles  
Trust The Process, get the concept, god flow in these verses  
Fans telling me to keep going gotta stay true to my purpose  
Seeing niggas through a real lens they all tough guys on the surface  
We ain't buying that hype, we ain't buying our likes  
Run around for that check, ain't talking about Nikes  
Lately I've been up tight, way to many late nights  
Building up a new life, shaking up a new dice

Spitting nothing but facts, fans screaming I'm back  
Legendary I'm that, cooking up a new patch  
Guess who got a new glow? Patenting a new flow  
Purifying that dough, my dog with me Cujo  
These niggas be lying, fairy tales in their rhymes  
Something special inside, everything in do time  
I just landed Multan, pick me up in that Don  
Everybody be calm, everybody be calm

Everybody be easy (easy), everybody so needy (needy)  
Fat lady at a barbecue, boy I'm 'bout to do a nigga greasy  
If we ever get to talking levels boy you working at about a preemie  
I can make a nigga disappear, A couple niggas who I know a Genie  
Shorty wanna hit the head now she can wrap around like a beanie  
Enough with the small talk, you niggas get dog walked  
I'm on the side of the outlaw, who want to wrestle a southpaw  
I wouldn't of done it without y'all, all of the loving the fans gave  
All of them talks in the man cave, all of that money your mans made  
Damn  
Finally got a hand made, hood nation I claim  
Motivating my veins, still spilling my pain  
Still drinking champagne, still gym and I train  
Hashtag I'm shredded, hashtag more blessings  
I was looking in the mirror boy I'm a real nigga with a message (Triple 7's  
nigga)  
3 Bless
