Ace Hood

I'm the one the people been waiting foe
See the poverty on the other side

Break down and build up... now we stronger
I'm The Who catching plays... amendola
You know I'm a titan breed... Mariotto
They know where I stand with dis... True devotion yea yea

Younging out his mind... he going sico
I might cop the Bentley truck and give it lipo
Rather see that cash tower like it's effiel
All these scars on my body I feel Tribal

You ain't got no bizness here
You ain't got no membership
Money make you real then you best know that you can't spend it here
Tom ford suit imperfect smile I cannot due vineer
Fuck the city up I left a piece there go souvenir
Popping in... yet again
Double Park Mercedes Benz... I play to win
Pistol we like best of friends... common sense
Smoking on the finest flower... behind the tents
I'm just out here catching p's... bob and weave
Want me you must the pay fee... No time to sleep
Glowing like the brightest light... I gotta be
Told my lady do one thing for us... don't lie to lie me

Break down and build up... now we stronger
I'm The Who catching plays... amendola
You know I'm a titan breed... Mariotto
They know where I stand with dis... True devotion yea yea

Younging out his mind... he going sico
I might cop the Bentley truck and give it lipo
Rather see that cash tower like it's effiel
All these scars on my body I feel Tribal

I'm the one the people been waiting foe
Been in love with dis since da get Go
See the poverty on the other side
We can't trust the people we idolize

Motivate... on this beat I orchestrate
I'm in my zone today
Them hateful vibes ain't got no time that shit get washed away
I need the space... I seen the snakes
I want my people straight... I'm wide awake
I wheeled the Faith... this shit gone detonate

Break down and build up... now we stronger
I'm The Who catching plays... amendola
You know I'm a titan breed... Mariotto
They know where I stand with dis... True devotion yea yea

Younging out his mind... he going sico
I might cop the Bentley truck and give it lipo
Rather see that cash tower like it's effiel

All these scars on my body I feel Tribal
