

Look In My Eyes

Ace Hood

You gone look me in my eyes and tell a lie but say don't lie to you?
I been working through my fears for all these years at least I'm trying too
You gone look me in my eyes and tell a lie but say don't lie to you?
I been working through my fears for all these years at least I'm trying too
I been searching all my life , all my life till I found you
You can try and numb the pain but it won't change cuz you ain't bulletproof
Bulletproof

You gone look me in my eyes and tell a lie but say don't lie to you?
I been working through my fears for all these years at least I'm trying too

Beautiful day out
Nigga made a way out
Chilling on my lonely
Smoking tiva at the lake house
Feeling all emotions like sometimes it ain't way
Out..
Grinding all yo life
And feel you still ain't get yo pay out..
Fuck it, niggas switching up side I'm like I love it
So we ain't gotta be faking all that friendly shit public
I'm good
Put that shit on my Hood
Wonder why I'm so anxious I feel so misunderstood
Tryna find me some answers while taking tots from the wood
Know them niggas would finish me if they thought that they could
All that humble shit old
Too 100 to fold
Hit the Stu and I zone I'm jottin wraps in my phone
I'm him

Whole heartedly mean it, I fought da demons
Keep my iron low like I'm diagnosed as nemic
Granny up in heaven she visit me when I'm dreaming
And I can feel the spirit connecting me to my Genius ..
I'm blessed..
Shredded up, so I flex
Compliments from yo girl
She like this shit on my neck [?]
She after me it's a stretch
Prolly why he upset
She gone start neglect
Now she hardly impressed
Now you barely a threat
I been trying to keep my cool
But I might scoop and collect
Hit up wifey direct
I got an option on deck
She gone smile wit he pretty self that's cause and effect
Come and peep my demonstration
Bring my proper respect

All dat Cappin in yo captions boy you hardly a threat
Lolo, never know the shit that I'm on I'm out in Cabo
People rarely visit this part is as far I know
Know it like the back of my hand it come to survival
Straight up, nigga

You gone look me in my eyes and tell a lie but say don't lie to you?
I been working through my fears for all these years at least I'm trying too
