

Memories Inside Never Die

Ace Hood

Memories inside never die.
From time we're born to time we're gone.
The time we expire.
Memories inside never die.
Everything that make us who we are.
Remember our favorite colors, remember
Our favorite restaurant, our favorite foods or near death experiences.
Our worst moments, great moments,
Highs, lows, it's everything that makes us who we are.
Memories inside they never die.
