

## Does It Hurt You

Ace

Seen a lot of faces  
In places I've been to  
No matter where I lay my head  
I can always think of you  
My mind is ever-changing  
Stay a different mood  
If ever I seem far away  
My heart is still with you

I'm just trying to hide away my blues  
It's so hard, my love, when I'm away from you  
Am I lying if I'm in another's arms and not with you?  
Does it hurt you?  
Make you feel so down inside?

To need somebody means so much  
To you as well as I  
We understand the way things are  
Don't worry, we'll get by

I'm just trying to hide away my blues  
It's so hard, my love, when I'm away from you  
Am I lying if I'm in another's arms and not with you?  
Does it hurt you?  
Make you feel so down inside?

I'm just trying to hide away my blues  
It's so hard, my love, when I'm away from you  
Am I lying if I'm in another's arms and not with you?  
Does it hurt you?  
Make you feel so down inside?
