Know How It Feels

Ace

There's a friend of ours who lives alone
Since we went our different ways
And he wonders if he'll carry on
Dreaming of those better days

Well I know how it feels
I know how it feels
I need someone and I know how it feels

Ain't no use sitting at home and watching your TV
You gotta get up off your knees and find you some company
There ain't no use, all by yourself

There's a friend of ours who lives alone
Since we went our different ways
And he wonders if he'll carry on
Dreaming of those better days

Well I know how it feels
I know how it feels
Well I need someone and I know how it feels

Said I know how it feels
I know how it feels
Well I need someone and I know how it feels
