The whole town got set alight
Got blown up with dynamite
And I'm high as a satellite
I'm in love with a meteorite
And there ain't no need to do the way you do
No, there ain't no need in ya breaking my soul in two

The whole town got set alight
It got blown up with dynamite
And I'm high as a satellite
Well, I'm in love with a meteorite
And there ain't no need to do the way you do
There ain't no need in ya breaking my soul in two

Ain't no need
Ain't no need
Ain't no need
Ain't no need

Well, there ain't no need to do the way you do
There ain't no need in ya breaking my soul in two

Well, the whole town got set alight
Well, it got blown up with dynamite
And I'm high as a satellite
Well, I'm in love with a meteorite
And there ain't no need to do the way you do
Ain't no need
No, there ain't no need in ya breaking my soul in two
