

# Can't Hold Back

Aceyalone

Yea, yea  
Yea

Say cold water  
Say warm water  
Say hot water  
Say hot water

Can't hold back, nah, can't hold back

Can't hold me captive  
I'm just too active  
They always wanna try and put you up in a cage  
And try and put you on different page  
I, I think the fact is  
I'm just too active  
They always wanna try and put you up in a cage  
And try and put you on different page

Re-regenerating  
I'll watch them while there waiting  
They keep invest-a-ga-ga-gating  
While i'm concentrating  
They're not considering  
It's so incriminating  
Thy're not in-ta-ta-timidating  
They're just hating, hating

Yo, big brother in the sky watches over you  
As long as you damn well do what you suppose to do  
You never even notice till it gets up close to you  
Then they post up on you  
Yea, he got a problem, but he can't escape it though  
Good times, bad times  
Watching the paper flow  
All he can think about is running and make it though  
Life's to short  
What the hell are you waiting for

No it ain't no mystery  
Show you what i got  
No you don't wanna test the water  
See it's burning hot  
And if you set your mind to thinking  
You gone stand in heed

Didn't your momma never tell you  
Land don't come for free

Say cold water  
Say warm water  
Say hot water  
Say hot water

Yea, dope man, preacher man  
Kinda the same at times  
Pimps and a politics

Similar frame of mind  
Forward on the button baby  
Nah, we can't rewind  
No, move on  
Least she got it going  
But she can't connect the dots  
Said she want it bad  
But she gotta protect alot  
Alot of hard work just to get the respect she got  
Whether she make it or not

Talking bout' pimps and a politics  
It's all the same thing to me  
But all that sugar in the kitchen  
Ain't going sweeten the tea  
Ya' better take a second look  
Before you cross the line  
Didn't your daddy ever tell you  
Don't play close to fine

Break it down  
C'mon  
Now i know i got a tight band  
Thats the reason why we all here together  
That's right  
Bassline  
Right  
Are we on time  
Guitar  
Yea we need horns too  
Lets go  
Work it out  
We going to the bridge  
Y'all ready  
Here we go

Can't hold back, nah, can't hold back

Say cold water  
Say warm water  
Say hot water  
Say hot water

1, 2, 3 and we done  
Ha,ha  
That was cool
