

No Service

A.CHAL

Dive off the roof, they yellin' suicide
I can't decide, I do two at a time
You say you gotta go to work girl what you mean
You like to chase so you pretend like you tryna leave
It's cool with me

Put that phone back in your bag
No service in the hills where we at
Got the shrooms, moon and the tabs
This a night that you ain't gettin' back

It's 5 A.M., don't wanna leave
You changed your plans to be with me
The simple things, that's all we need
Get lost with me

Dived off the roof, they yellin' suicide
I can't decide, I do two at a time
You say you gotta go to work girl what you mean
You like to chase so you pretend like you tryna leave
It's cool with me

Purple Rain playing in the back
It feels like the haze where we're at
Look up at the sky, take a drag
Tell your friends that you ain't gettin' back

It's 5 A.M., don't wanna leave
You changed your plans to be with me
The simple things, that's all we need
Get lost with me
Get lose with me, babe

It's 5 A.M., don't wanna leave
You changed your plans to be with me
The simple things, that's all we need
Get lost with me
Get lose with me, babe
