

Shadows

A.CHAL

See them when they come by
Shadows in the nighttime
Drivin' just to unwind
And fade into the sunlight

Californication, I don't need a break
I'm swervin' up the hills and I'm raisin' up the stakes
Maybe it's been me that's been gettin' in my way
Maybe it's some things that I gotta give away

You can have it back, back, back, back, back
I never wanted that, that, that, that, that
You can have it back, back, back, back, back
I never wanted that, that, that, that, that

Kiss until we're tongue tied
Put too much on my life
Drivin' just to unwind
To fade into the sunlight

Californication, I don't need a break
I'm swervin' up the hills and I'm raisin' up the stakes
Maybe it's been me that's been gettin' in my way
Maybe it's some things that I gotta give away

You can have it back, back, back, back, back
I never wanted that, that, that, that, that
You can have it back, back, back, back, back
I never wanted that, that, that, that, that

You can have it back, back, back, back, back
I never wanted that, that, that, that, that
You can have it back, back, back, back, back
I never wanted that, that, that, that, that
You can have it back, back, back, back, back
I never wanted that, that, that, that, that
You can have it back, back, back, back, back
I never wanted that, that, that, that, that

You can have it all back
I never wanted none of that
I'm goin' to the light with that
I'm goin' to the light with that
