Shoot To Kill

A.CHAL

She never miss when she shoots, she kills
And the pain that she left was all I needed (Whoa, whoa)
Hey, yeah

It's hard to tell if her love is real
When there's too much you can gain from (Yeah)
Sustain myself in this fantasy
A different world that I came from (That I came from), I
I saw myself in a different love, my darkness always haunts me, yeah, yeah
I'm Far From Gaz, had to realize it wasn't all about me, yeah, yeah
Take me back when this was just the process (Take me back)
Take me back when all the shit was nonsense (Nonsense)
Take me back when I had no cents on me

She never miss when she shoots, she kills
And the pain that she left was all I needed

All I ever want, yeah, all I, all I ever wanted
All I ever want, yeah, all I, all I ever wanted
