

Vibrations

A.CHAL

I don't owe you nothing no more
They just wanna party, con el coco
Lamborghini moving like a toro
Riding solo baby like El Zorro, yeah
With a bad bitch from Morocco
I came a long way de un cholo
Mama en la casa cooking pollo
If you weren't loyal, I don't know you

All those nights, I feel like I was the closest
Took a couple L's, couple losses
Had to stay true to the process, process
I can't lie
Almost gave in to the nonsense
When I'm cunning in my conscious
Had to stay true to my closest, close ones

Going with the good vibrations
I only want the good vibrations
Rolling up good medication
I'm only going with the good vibrations, brations

I got all ya mamís singing coros
Getting top in photo booths in Soho
En la calle andando con los lobos
You can see my eyes, the color rojo, yeah
I've been up for 72 hours
First you get the chavo then the power
Gazu Steve don't want another, doubt it
Bust open the bag and count the blessings, yeah

All those nights, I feel like I was the closest
Took a couple L's, couple losses
Had to stay true to the process, process
I can't lie
Almost gave in to the nonsense
When I'm cunning in my conscious
Had to stay true to my closest, close ones

Going with the good vibrations
I only want the good vibrations
Rolling up good medication
I'm only going with the good vibrations, brations
Going with the good vibrations
I only want the good vibrations
Rolling up good medication
I'm only going with the good vibrations, brations
