

Satan Holds Dominion

Acheron

Rebels at birth that were born without shame
Soldiers of hate who can never be tamed
This world is ours, let me explain
Your useless prayers have been done in vain

Satan - holds - dominion

Rising against those of the divine light
Defiant. Our legions stand up and fight
Impious-spirits live by fang and claw
Cults of holy we'll destroy you all

Satan - holds - dominion

Fuck their gods who mean nothing to us
And fuck religions of lies
Fuck the prophets who spread deceit
For these are the things we despise

See us, hear us, face us, fear us!
See us, hear us, face us, fear us!
