

All Alone

Acid Ghost

We got lost in the summer heat
Used to drink cold beer and smoke good weed
Let's stargaze in the backseat tonight
You're gonna leave me in the morning time
But I'll act as if I'm completely fine
And I'll be alone by myself tonight

And I'm all alone, I'm all alone
I'm all alone
And I'm all alone, I'm all alone
I'm all alone

We used to spend our days in the sand
Not a care in the world we didn't have plans
Now you and I are hard to understand
I used to think you're all I need
We made out in the pier, stay out 'til 3
Now I'm just looking at an empty sea

And I'm all alone, I'm all alone
I'm all alone
And I'm all alone, I'm all alone
I'm all alone
