

# Ayce's Song

Acid Ghost

Feeling empty  
Push back the light  
Something morbid  
Chaotic, seems right

And these lucid dreams are turning real  
Darkness creeps, your kiss I feel  
And everything just doesn't feel real

And I doubt  
I cry  
And I shout (shout!)  
In my mind

Then I push you away and now we're not okay  
And we're stuck in this loop in a matter of days  
I hurt you, what did I do?  
'Cus when I felt your embrace and it felt out of place  
I fake a smile on my face  
And tell you were all okay?  
It's not true, I don't love you anymore

Growing anxious  
And the walls cave in  
I'm out of focus  
And I can't help but feel thin

An d these lucid dreams are turning real  
Darkness creeps, your kiss I feel  
And everything just doesn't feel real

And I doubt  
I cry  
And I shout (shout!)  
In my mind

Then I pushed you away and now we're not okay  
And were stuck in this loop in a matter of days  
I hurt you, what did I do?  
'Cus when I felt your embrace and it felt out of place  
I fake a smile on my face  
And tell you we're all okay?  
It's not true, I don't love you anymore
