

Fallen Apart

Acid Ghost

We've been fallen apart
And it's been a few years
Still cannot think clear
Since we've fallen apart
You're the one that I fear
And you're not close here
I'll pretend
I'm someone I'm not
Put my black fit on
Spend a few racks for 'em
Now your with someone that's hot
I swear it doesn't bother me

Since we've fallen
We've fallen apart
We've fallen
We've fallen apart
It's all regrets
Secrets
Inside of us
And now we've been
Fallen apart

I'll wait it out for now
I won't make a sound
Someday I'll know when it's clear
I'll know when it's here, now
Because I've already quit
It's all over with now
It's time to exit the stage
Take my applause, bow

It's because I've fallen
I've fallen apart
And I've fallen
I've fallen apart

Since we've fallen
We've fallen apart
We've fallen
We've fallen apart
It's all regrets
Secrets
Inside of us
And now we've been
Fallen apart

We fell apart
We fell apart tonight
We fell apart
We fell apart tonight
We fell apart
We fell apart tonight
We fell apart
We fell apart tonight

We fell apart

We fell apart tonight
We fell apart
We fell apart tonight
We fell apart
We fell apart tonight
We fell apart
We fell apart tonight
