

Henry

Acid Ghost

Where henry goes, I don't know
But I wanna see the places in her dreams she seems to love

And when she looks to the sky
There's a city in her smile and there's an ocean in her eyes

Where she goes
Where she goes
Where she goes, I wonder where she goes
Where she goes, I wonder where she goes
Where she goes, I wonder where she goes
Where she goes, I wonder where she goes
