

## Letters

Acid Ghost

Let's go gaze at stars  
Tell me which one shines the most  
And even if we're far  
Let's look at the same star that shines and glows

Tell me what you see  
And I'll tell you where I'll be  
You say we'll make it work  
No matter how much the distance hurts

And I'll send you letters from miles away  
I'll make sure that it gets to you  
And you'll send me letters from miles away  
And I promise that we'll get through

I wanna hold your hand  
But I can't from where I am  
You're the one I really miss  
But for now we gotta deal with all this shit

And I'll send you letters from miles away  
I'll make sure that it gets to you  
And you'll send me letter from miles away  
And I promise that we'll get through

I will send you a letter from miles away  
And I'll make sure it gets to you  
You will send me a letter from far away  
And I promise to make it through
