

Melancholy Fields

Acid Ghost

So this is where I leave you all for right now
I probably won't meet you again but I vow
If you need a friend anytime I'm down
To meet you there, you know where, somehow

You know where I will be
Where only we can see
You know we both need

Melancholy fields we can see in the light
Where all the things just feel right
Melancholy fields with all the sights
Melancholy fields we can run the night
Melancholy fields
Melancholy fields
Melancholy fields
Melancholy fields

I'm there
Nowhere
Somewhere
He's there
I'm there
Nowhere
I'm there
Nowhere
Somewhere

And nobody says shit
We can erase it
We can escape it
We can embrace it

We can have some fun
You can sing along
We can have some fun
We can have some fun
You can sing along
We can have some fun

And the sun is shining up for you
And the sun is shining up for you
