

## Mistakes

Acid Ghost

I've been letting out mistakes  
For all of you to hate  
When I am not okay  
Will all of you still be around?

When I'm lost  
The white and brown I bought  
When my medicine arrives  
I feel very alive

It's not okay to always be in pain  
When you're OD'ing who's gonna be at your side?  
It's all you buy, and we're shooting all the time  
And your friends will start to change  
And you're not really the same
