

No Joy

Acid Ghost

Look in my eyes
Make up the lies
That I love to hear

You're one of a kind
The one on my mind
For the rest of my year

Can I chase you around
Chase you around
From me?

Can we run around
Run around
From me?

Look in my eyes
Tell me your lies
That I love to hear

Deep down inside
Tell me your mind
Sew me your fears

Can I chase you around
Chase you around
From me?

Can we run around
Run around
From me?

Just look in our eyes
Tell us the lies
That we love to hear
We're a one of a kind
The one on their minds
For the rest of the year
Can you chase us around
Chase around from here?
Chase us around
Chase around from here?

Just tell us the lies
