

## Not The Same Person

Acid Ghost

Yeah, just play it like that. I'll have the other guitar

She calls me  
And she asks if we could ride bikes by the beach  
And then we'd go and bike till night

But I wanna be alone  
And I don't even pick up my phone  
The drugs got me, you know?  
You tell me how much we've grown

Now we're growing at the speed of sound  
You thought nothing's gonna bring us down  
But the drugs and I were bound  
To come across and find me somehow  
Now we're growing at the speed of sound  
You thought nothing's gonna bring us down  
But the drugs and I were bound  
To come across and find me somehow

She ignores me  
And she thinks that I'm a waste  
And then I beg her  
That I'm gonna be okay  
But she doesn't believe in me anymore  
She doesn't believe in me anymore  
And then we grow apart and life takes its place

It's 'cause we're growing at the speed of sound  
You thought nothing's gonna bring us down  
But the drugs and I were bound  
To come across and find me somehow  
Now we're growing at the speed of sound  
You thought nothing's gonna bring us down  
But the drugs and I were bound  
To come across me and find me somehow
