

Someone Else

Acid Ghost

Well the odds on me since I'm not the favorite
Can't believe you left me, but I just fell for it
I should've known that it was a trap
Whatever I feel now, I can't return back

Oh I can't help it, I can't help it anyway
I'm so depressed, yeah I'm so depressed today

Put the odds on me since I'm not the favorite
Can't believe you chose him
It's not a secret that you fell for someone else
Put the odds on me since I'm not the favorite
Can't believe you chose him
It's not a secret that you fell for someone else

Well the odds on me since I was never better
He has a beard and brings you out to dinner
I just wanna tell you that he is a douche
I'll call back in two years and see if you pull through

I can't help it, I can't help it anyway
I'm so depressed, yeah I'm so depressed today

Put the odds on me since I'm not the favorite
Can't believe you chose him
It's not a secret that you fell for someone else
Put the odds on me since I'm not the favorite
Can't believe you chose him
It's not a secret that you fell for someone else
