

# The Void!

Acid Ghost

Yeah, watch me fill my void up  
I'm sorry  
That you hear my  
Pity party  
I'm hexed up  
Take this spell off of me  
Spit their lies out  
They cheer  
Proudly

And I feel this void in myself  
I feel the void in myself  
I feel the void in myself  
I feel the void like no one else

And I know I've been difficult  
And my family's confused and hurt  
And all I do is push them  
Away from me  
And they can all sense it  
That I started to lose it  
Every year is as bad as 2017  
And I say proudly

That I feel the void in myself  
I feel the void in myself  
I feel the void in myself  
I feel the void like no one else

And I feel the void in myself  
I feel the void in myself  
I feel the void in myself  
I feel the void like no one else

And I feel this void in myself  
I feel the void in myself  
I feel the void in myself  
I feel the void like no one else
