

# Will You Love Me In The Morning?

Acid House Kings

Will you love me in the morning?  
When it's far too early  
And you hate the place and work  
You have to go to at nine

Will you love me in the morning?  
When the coffee's cold, the paper's late  
The rain keeps pouring for the third day straight

Will you love me in the morning?  
When it's hard to make things work out  
When it's so hard make things work out

He says "May love be"  
She says "We'll see"  
He says "May love be"  
We can go far  
Yes, we can go far

Will you love me in the morning  
When we've had a fight and I  
Have told you things you know I never really meant

Will you love me in the morning  
When you've been awake since three  
And there's no hope in making up the lack of sleep

Will you love me in the morning  
When it's hard to make things work out  
When it's so hard make things work out

He says "May love be"  
She says "We'll see"  
He says "May love be"  
We can go far  
Yeah, we can go far

Make it easy on me  
I make it easy on you  
Make it easy on me  
I make it easy on you

He says "May love be"  
She says "We'll see"  
He says "May love be"  
We can go far  
Yeah, we can go far
