

On To Everafter

Acid King

Here comes the knife
Comes to me closer
Faster than life
Faster than life

Here comes the knife
The end comes closer
Closer to the light
Closer to the light

Hail remember within
On to everafter
Hail remember within
On to everafter

Leaves close the sight
Covers me over
Closer to the light
Closer to the light

Hail remember within
On to everafter
Hail remember within
On to everafter
