

Into Flames

Acres

Just get me out of here
Change my face, my name and burn all my clothes (Burn all my clothes)
I'm just a shadow here, I have nothing left to give anymore (Give anymore)

Into flames, I watched the life I had just burn and decay
I can't get back all that you've taken from me
Consumed by the darkness and pulled from the light
Forgive me, I'm letting us die

Into flames, I sit and wait for you to come and take me (Come and take me)
In a room that's been tarnished with hate (Tarnished with hate)
I can't escape, consumed by the darkness and pulled from the light

Into flames, I watched the life I had just burn and decay
I can't get back all that you've taken from me
Consumed by the darkness and pulled from the light
Forgive me, I'm letting us die

Into flames, I watched the life I had just burn and decay
I can't get back all that you've taken from me
Consumed by the darkness and pulled from the light
Forgive me, I'm letting us die

(Into flames)
Consumed by the darkness and pulled from the light
