

# Push Me Away

Acres

Push away from me  
It's better you don't know  
Rip your thorns from me  
It's better left unknown  
I'll deceive you  
And I'll leave you  
As broken as they come  
I don't blame you  
You're no savior  
You can fix what's dead and gone

Push me away  
I'm the reason that your heart feels empty  
I'm the reason that your world stood still  
Push me away  
Lose your grip and I will drag you with me  
Underneath where the light won't spill

No forgiveness  
Rid the sickness  
That lives inside of me  
I don't blame you  
You're no savior  
I don't need your sympathy

Push me away  
I'm the reason that your heart feels empty  
I'm the reason that your world stood still  
Push me away  
Lose your grip and I will drag you with me  
Underneath where the light won't spill

Scratch out my name  
And forget every part of me you have left  
Wish me dead  
Erase my face, bury the pain  
Of everything you know  
Leave me here where the light won't spill

Push me away  
I'm the reason that your heart feels empty  
I'm the reason that your world stood still  
Push me away  
Lose your grip and I will drag you with me  
Underneath where the light won't spill
