

Always Remember

Acroma

I want to live with the doubt
it's not easy to over come
try not to, fall in sadness
be optimistic, in this trial

lose the faith in life
it's too sad isn't it?
win the fight to death
it rises again

Always remember
there is another way to live
keep the honor and memories
keep my eyes on you

I lived my life
I walked my road
I kick the dust of the war
and I said goodbye
without great end
the grateful my death
it's just the beginning
