

Lifeless Image

Acrophet

Society thinks I'm on drugs
No smiles, kisses, love or hugs
Working's gonna kill my brain
And classify me f**king insane
You put me through this little test
To see if I'm like the rest
Look at me with your little stare
Trust my temper if you dare
Telling me to grow up
Why can't you f**king see
I don't wanna be like you
I wanna be just me
Forcing me to play your game
In and all around
Driven into madness
So death is all I found
Killing! killing! anxiously
I'm never gonna stop
Killing all society
The bomb I'm gonna drop
I don't wanna hear your voice
Bitching all the time
You're the one we're gonna get
You think it's such a crime
