

## Everywhere She Goes

Across The Sky

Last night I saw her out  
In the city crowd  
Laughing in the breeze  
She smiled at me  
Just like a movie scene  
It was her and me  
Waltzing in our heads  
All by ourselves  
And as she passed me by  
I could see it in her eyes

Everywhere she goes, she goes there knowing  
I just want to be with her  
Everywhere she goes, she goes there knowing.  
I just want to be  
I just want to be with her

Seems like I see her face  
Every couple days  
Playing hard to get  
I can't handle this  
Something about the way she moves  
The looks she gives, the attitude  
It pulls me in

Everywhere she goes, she goes there knowing  
I just want to be with her  
Everywhere she goes, she goes there knowing.  
I just want to be  
I just want to be with her

When's she gonna stop these games?  
When's she gonna stop?  
(Everywhere she goes)  
I just want to be with her

Everywhere she goes, she goes there knowing  
I just want to be with her  
Everywhere she goes, she goes there knowing.  
I just want to be  
I just want to be with her
