

# Polish, Reduce And Enlarge

Act

You look good, that's right  
I have to know just in case  
Who did you pay to get that perfect face

God, I think you're cool  
You always do what is right  
But have to say, your skin looks awful tight

So you say that you are way too fat  
And your hair looks like a sewer rat  
Guess there's only one thing to do  
It's clear what you need, see no options for you

Polish your bone  
Reduce your chin  
'Cause your face looks a little uneven  
Silicon, yes, enlarge your breasts  
It's a painful procedure, well who really cares?  
Doctor's surprise  
Lips blown up in size

You look good, yeah right  
I really think you've got style  
Don't get me wrong, I like your plastic smile

Oh, you are my god  
You've got it all, you're my star  
Your age again? You start to look bizarre

No expression, not a single line  
Still you're looking for a new design  
Guess there's only one thing to do  
It's clear what you need, see no options for you
