

DOCTOR

Action Bronson

Good morning, doctor

Three helicopters circlin' the sky like condors
All around the jungle, searchin' for the crime boss
It's like a scene from Cyborg
X-Cape or Hayabusa, vroom, vroom, hear the lion roar
A blinding light and smoke is what you see when I'm ridin' off
Headin' towards the mountains, just let the sun guide me
Keep a big bag of guns by me, drugs by me
My Colombian thug mami
