

I took a hit of your love and held it deep inside  
And calculated the reasons you keep me satisfied  
All for you  
It's like this noose is our love, around my neck so tight  
I think I'm losing consciousness  
I think I'm losing my mind for you

But in the middle of what we had was gone  
We cannot falter now, no  
Even when I'm gone away  
You won't ever see this throne  
It's where you rest your head

Oh lord it feels so nice  
You've got me paralyzed baby  
You, you won't ever be alone  
You won't ever see it again, no  
Unless you ring the alarm  
You, you won't ever be

The beat goes  
On and on forever  
As the beat goes on we're haunted by the sound  
Boom boom, broken heart  
Ghost of a lover gone  
Aww I don't wanna be apart, girl  
I don't wanna sing that song

But the beat goes  
On and on forever  
Like a record on repeat comes back around  
Boom boom, got that spark  
Eyes of a lover caught  
Aww you don't wanna be alone, girl  
Dancing in the dark

Because I want you to know  
I still believe we can never make it alone  
Even when you kept deceiving me  
I knew that we'd always grow  
Because after it all  
We gotta move on, yeah we gotta stay strong  
Like the beat of this song, like the beat of this song  
Oh we're living in a world where love is the goal  
We've living in a world where love is ending

Oh lord it feels so nice  
You've got me paralyzed baby  
You, you won't ever be alone  
You won't ever see it again, no  
Unless you ring the alarm  
You, you won't ever be
