

## Temptation

Active Child

You recognize my fear's own sight  
Ice been down all on your spine  
I knew I couldn't let you get away  
You make me wanna see a brighter day

Show me tonight  
Oh I've waited so long  
My desire  
Waited so long  
Show me tonight  
Oh I've waited so long  
My desire  
Waited so long

No more than just a one night stand  
No regrets, no future plans  
Addicted to the games we play  
But I know that you can't stay

Show me tonight  
Oh I've waited so long  
My desire  
Waited so long  
Show me tonight  
Oh I've waited so long  
My desire  
Waited so long
