

Once again this life is f**ked
Back again with a vengeance
Turn around you're right there
To twist the knife that rules my life
Backing off my chances
Do or die
More leverage
Basically it's just loud and clear
Motha f**ker!
I said don't you get my message
What the hell
Brain damaged
Turn around your conscience
Your blue grass stain is running red
Backing off my chances
Do or die
More leverage
Basically it's just loud and clear
I've got four words for you motherf**ker
My champion
Your loss
My one way
Get off
Stop looking at me
