It seems that I have found Mr. Razor, only I don't die
In fact it keeps my soul alive

It's like you said it was, except without the pain
You know I'd feel it all, for you

Where is my...

Thorazine?!

It's like you said it was, except without the pain
You know I'd feel it all, for you

Running screaming fasting dreaming lest the world reclaim its p
rize

I remember the grave and all its lies

In order to feel more, smash more, break more
k** more, rape more, burn more, be more, I am more
Where is my...

Thorazine?!

It's like you said it was, except without the pain
You know I'd feel it all, for you

In order to feel more, smash more, break more
k** more, rape more, burn more, be more, I am more
I am more
