

## Theory 0

### Ad Hominem

Spectres fathering listless wimps  
Holding the rusty keys of future  
Withdrawn into their faith  
Sullied is their honour

Undividuals feeding the smug mongrel kind  
I shall not share this pride  
Contemptible decline  
Exuding death from every pore

Theory 0 is now effective, banner of non-  
future, organ of the implacable truth...  
May they remain blind

Compassion : undone  
Tolerance : undone  
Love : undone  
Hope : dead

Where their end starts, my will rises  
Despising the proud bastard race  
Comatose patient of an impalpable decay
