

## Fire And Ice

Ad Infinitum

Dancing together  
Building forever  
Dancing together  
Building forever

Take my hand, bring me again to your paradise  
Our little games, together we play, they make me smile  
You touch my skin, I leave the ground  
Watch the moon shining in your eyes  
You kiss my lips, I'm up in the sky  
Oh, I believe in you and I

Above the clouds  
Among the stars  
We'll draw tomorrow  
'Cause we'll be

Fire and ice  
Dancing together  
Building forever  
Oh oh oh  
Fire and ice  
Whispering to the wind  
All our foolish dreams  
I don't believe this

Fireflies dance in the night to show us the way  
Beautiful path together we walk days of dreamscape  
Here in your arms under a spell  
The ground could grow and I'd still be there  
You kissed my neck I'm up in the sky  
Oh, I believe in you and I

Above the clouds  
Among the stars  
We'll draw tomorrow  
'Cause we'll be

Fire and ice  
Dancing together  
Building forever  
Oh oh oh  
Fire and ice  
Whispering to the wind  
All our foolish dreams

Sweet fantasy  
Let's pretend once again  
We can travel through time  
Our memories will stay  
Immortal in my heart  
Sweet symphony  
Let's see once again  
Together, hand in hand  
I'll chase your fears away  
From dusk till dawn  
I'll be alright (I will be)

Fire and ice  
Dancing together  
Building forever  
Oh oh oh  
Fire and ice  
Whispering to the wind  
All our foolish dreams

Fire and ice  
Dancing together  
Building forever  
Oh oh oh  
Fire and ice  
Whispering to the wind  
All our foolish dreams  
I don't believe this

Dancing together  
Building forever...
