

New Dawn

Ad Infinitum

Another sunrise
Another day
Another miracle
Or so they say

Under the moonlight
Pledging my tears
To build a paradise
Will you believe in me?

Another page I've been waiting for
Creating a new reality

I found you waiting
Tomorrow is ours now
Holding your hand
For a moment in time
A new dawn, a new day
And brand new world for our kind

Changing horizons
Touched by the light
A wind of prosperity
Clearing the sky

I promise you delights
Beyond your dreams

A new dawn, a new destiny

I found you waiting
Tomorrow is ours now
Holding your hand
For a moment in time
A new dawn, a new day
And brand new world for our kind

I found you waiting
Tomorrow is ours now
Holding your hand
For a moment in time
A new dawn, a new day
And brand new world for our kind
