

Outer Space

Ad Infinitum

Out of control!
Out of control!

Shooting stars crashing on the moon
Outer space, I'm singing out of tune
Like a rose just about to bloom
Hold on tight, yeah I'll be ready soon

The abyss was calling my name
I needed to lose my horizon
And soon I'll return, untamed
To dance to the sound of the midnight rain

My satellite is floating round and round
My whole world is turning upside down
In this celestial maze, you're my guiding light
I know that every cage has a way out

I'm feeling paralyzed
When my mind is losing control

The abyss was calling my name
I needed to lose my horizon
And soon I'll return, untamed
To dance to the sound of the midnight rain
(The midnight, the midnight rain)
To dance to the sound of the midnight rain

I'm out of sight
I'm out of my mind
And I scream I'm sorry on the radio
Can you hear my echo?

I'm out of sight
I'm out of my mind
And I'm screaming on the radio
Can you hear my echo?

The abyss was calling my name (Calling my name)
I needed to lose my horizon
And soon I'll return, untamed (Untamed)
To dance to the sound of the midnight rain

I'm out of sight (The abyss was calling)
I'm out of my mind
And I'm screaming on the radio
Can you hear my echo?
