

# Revenge

Ad Infinitum

I know how pain can talk to me  
I remember how hate can make me feel

When lights go down  
Sometimes these states of mind  
Make me deaf and blind  
What goes around comes back around

Pain  
Burns  
Me

Help me in my darkest moments  
Help me when I fall  
(Help me when I fall)  
When I lose myself in this  
Hopeless black hole  
I believe  
Revenge is not my way  
I believe  
Who once was close to the sun  
Without getting burnt

I hate when it brings me to my worst  
So ashamed of this weakness, I feel cursed

When lights come back  
I suddenly realise  
It wasn't worth the price  
Hey, I'm allowed to be human

Pain  
Burns  
Me

Help me in my darkest moments  
Help me when I fall  
(Help me when I fall)  
When I lose myself in this  
Hopeless black hole  
I believe  
Revenge is not my way  
I believe  
Who once was close to the sun  
Without getting burnt

Another day my eyes turn black  
Dark desire, there's no turning back  
Don't push me to the edge of control  
I might be but your weakness if I fall

Help me in my darkest moments  
Help me when I fall  
(Help me when I fall)  
When I lose myself in this  
Hopeless black hole  
I believe

Revenge is not my way  
I believe  
Who once was close to the sun  
Without getting burnt
