

Everything

Ada Ehi

Ohh-oh
Everything

Way maker
Can you ever lose your way
The truth and life
Is it possible for you to lie
Forever the same
Can you ever make a mistake
You are more than the words we sing
You are everything

Everything everything
You are every thing
The first and last
And the distance in between
Everything everything
You are every thing
The first and last
And everything in between
Everything everything
You are every thing
Everything everything
You are everything

Way maker
You can never lose your way
The truth and life
It's not possible for you to lie
Forever the same
You can never make a mistake
You are more than the words we sing
You are everything

Way maker
You can never lose your way
The truth and life
It's not possible for you to lie
Forever the same
You can never make a mistake
You are more than the words we sing
You are everything

Everything everything
You are every thing
The first and last
And the distance in between
Everything everything
You are every thing
The first and last
And everything in between
Everything everything
You are every thing

Everything everything
You are every thing
The first and last

And the distance in between
Everything everything
You are every thing
The first and last
And everything in between
Everything everything
You are every thing
Everything everything
You are everything

You are God
Besides you there is none
You've proved it time after time
We'll bless you time after time
You are God
Beside you there is none
You've proved it time after time
We'll bless you time after time

Everything everything
You are every thing
The first and last
And the distance in between
Everything everything
You are every thing
The first and last
And everything in between
Everything everything
You are every thing
Everything everything
You are everything
