

Never Go Down

Ada Ehi

Just smile your picture's taken
Say cheese your history is written
Let all the fears go out the door
Shut your doors to keep them out
But keep the picture of your dreams
Beside your heart

Oh, we're levitating
This joy is elevating
When you find your pace within the race
Showing everyone the faith
Then you've found your place

We never go down
We never go down
We never go down, no
Just like the ceiling of stars
All over the airspace
We never go down, no
We're flying for life
We're flying for life

The hand of God is upon me
And I never met a thing that can break me
Cos I never met a thing that could break God
And I'm the apple of His eyes
That mark leaves no windows
For the forces of darkness to operate
And I know that He got my back like a vertebrae
I'm blood bought
I'm redeemed with Grace
I've been empowered by His spirit
I'mma win my race
I'm flying high and I'll never land
I got that joy that they can't understand
My dreams are valid
There's a well inside me
I looked in the mirror and yelled
And nobody can stop me
I don't care if they doubt me
I know who got me
24 7 got His shield around me
So until the day my God comes
You can find at the mountain top proclaiming to the world that

We never go down
We never go down
We never go down, no
Just like the ceiling of stars
All over the airspace
We never go down, no

Rise, oh fighter
Oh oh, win oh winner
Let his fire and light
Ignite your heart
Oh, like heroes of the time

Before before

We never go down
We never go down
We never go down, no
Just like the ceiling of stars
All over the airspace
We never go down, no
We're flying for life
We're flying for life
