

The Word Is Working (Refreshed)

Ada Ehi

It's working, working, working

The word is working inside of me
The spirit of life is alive in me
The word is working inside of me
The spirit of life is alive in me

The word is working inside of me
The spirit of life is alive in me
The word is working inside of me
The spirit of life is alive in me

The word is working on the inside
Flowing through the outside, making me over
The word is working on the inside
Flowing through the outside, making me over again
The word is working on the inside
Flowing through the outside, making me

So I lift my hands tonight
The limitations are broken
I lift my voice tonight
All the walls around me are fallen

The word is working
The word is working
The word is working, oh
The word is working
The word is working
The word is working in me

It's working
It's working

The word is working inside of me
The spirit of life is alive in me
The word is working inside of me
The spirit of life is alive in me

The word is working on the inside
Flowing through the outside, making me over
The word is working on the inside
Flowing through the outside, making me over again
The word is working on the inside
Flowing through the outside, making me

So I lift my hands tonight
The limitations are broken
I lift my voice tonight
All the walls around me are fallen

The word is working
The word is working
The word is working, oh
The word is working
The word is working
The word is working in me

It's working
It's working

The word is working
The word is working
The word is working, oh
The word is working
The word is working
The word is working, oh
The word is working
The word is working
The word is working, oh
The word is working
The word is working
The word is working, oh

The word is working in me
Is working through me
The word is working on
Is working on, is working in me
